General overview of the programme

Intervention Area	Budget (MEUR)
Governance	17
Multimodal sustainable Transport	36
Professional and technical skills	10
Civil Society	n/a
Other support measures	5
Total	68

Sector 1: Governance

General objective: to strengthen the legitimacy, transparency and effectiveness of the State in order to overcome the political and economic fragility.

Specific objectives: to strengthen the fundamentals of a good political and financial governance and the rule of law, supporting reforms in the electoral field, justice and public finance.

Expected results:

- ✓ The process of democratization has been consolidated through the organization of free, transparent and credible elections
- ✓ The judicial system is reformed, contributing to the improvement of its independence, integrity, efficiency, access and equity
- ✓ Transparency and efficiency in the management of public finances improved, in line with international norms and standards

Sector 2: Multimodal Sustainable Transport

General objective: to develop the mobility of goods and people to consolidate the foundations for strong and sustainable growth by promoting internal trade, and regional inter-island and supporting private sector development.

Specific objective: to strengthen the basic infrastructure and multimodal transport services including durable, safe, affordable measures to improve governance of the sector.

Expected results:

- ✓ The capacity management, planning and governance in the transport sector are strengthened
- ✓ The road network is sustainably improved and road transport is cheaper, more accessible
- ✓ Marine transportation infrastructure is improved and the transport of goods and people cheaper, more accessible and more effective

Professional and Technical Skills

General objective: To strengthen the formation of human capital in line with the needs of the labor market and Comorian sectors with high growth potential defined by SCA2D -- Stratégie de Croissance Accélérée de Développement Durable (SCA2D)

Specific objective: To improve the availability, quality and governance of the sector of technical and vocational training for better employability and employment of leavers training system.

Expected results:

- ✓ The offer and access to technical and vocational training are extended and adapted to the labor market
- ✓ The quality and performance of the technical and vocational training are improved
- ✓ The governance of the TVET system is improved

Other support measures

The EU will maintain its support to capacity building of actors through support to the National Authorising Officer with an indicative amount of EUR 5 million, which will include ad hoc support to stakeholders and a technical cooperation facility.
