

National Indicative Programme 2014-2020

MALI

11th EDF 2014-2020

General overview of the programme

Intervention Area	Budget (MEUR)
Governance	280
Rural development and food security	100
Education	100
Road transport and infrastructure	100
Other support measures	25
Total	615

Sector 1: Governance

General objective: State reform and consolidation of the rule of law in Mali.

Specific objectives:

- Reinforce the effectiveness, credibility and legitimacy of State Government institutions;
- Introducing reforms to improve Mali's economic performance.

Expected results:

- Measures reinforcing judicial institutions and fighting against corruption are promoted; Public Finance Management is enhanced
- Public security is assured by means of territorial integrity;
- State reform is consolidated through effective decentralization;
- Business climate is improved in order to foster investments.

Sector 2: Rural development and food security

General objective: to promote sustainable, modern and competitive agriculture and reinforce population resilience to tackle nutritional vulnerabilities.

Specific objectives:

- Sustainable agricultural models are implemented; malnutrition levels are reduced and food security is guaranteed;
- Reinforce governance in the agricultural and food security sectors.

Expected results:

- Water control is reinforced through the rehabilitation/construction of hydro-agricultural plants for small, medium and big irrigation undertakings
- Access to secure food is reinforced and measures to prevent malnutrition are put in place;
- Crisis prevention capacities are strengthened at all the levels of government;

- Sustainable and equitable access to natural resources is guaranteed.

Sector 3: Education

General objective: to contribute to the improvement of the education system as well as reinforcing its effectiveness

Expected results:

- Quality of students learning is improved;
- The management of the different levels of the education system are more effective;
- Access to structures for skills development is guaranteed for all.

Sector 4: Road Transport and Infrastructure

General objective: to increase mobility and transport of people and goods.

Specific objectives:

- Contribute to improve access of the northern regions;
- Promoting road transport and fostering employment creation;
- Reinforce governance in the transport sector;

Expected results:

- The route Bourem-Kidal is finalized;
- Road service maintenance is improved;
- Techniques regarding High Intensity Works are promoted and applied by companies

Civil Society

Civil society support will be incorporated into the three areas of concentration with an allocation of 10 MEUR, which aims to (i) promote citizen involvement in governance of public affairs, particularly in key sectors of the EU-Mali cooperation and (ii) build the emerging movements for citizenship.

Other support measures

A support facility designed to support the programming, preparation or implementation of actions is planned with an allocation of 8 MEUR. It will be used to support activities in limited amounts. It will not be used or to finance small projects in additional areas or for actions related to cross cutting issues sectors. Support to the National Authorizing Officer (NAO) will continue. The indicative allocation to the NAO is 7 MEUR.
