

**National Indicative Programme 2014-2020**

**SOMALIA**

**11<sup>th</sup> EDF 2014-2020**

**General overview of the programme**

Intervention Area	Budget (MEUR)
Governance and Peacebuilding	100
Food Security	86
Education	60
Civil Society	14
Other support measures	26
<b>Total</b>	<b>286</b>

**Sector 1: Governance and Peacebuilding**

**General objective:** to bring stability, peace and build a federal Somalia through inclusive political processes, establishing unified, capable, accountable and rights-based federal security and justice institutions.

**Specific objectives:**

- ✓ Rule of law strengthened and access to justice is expanded. Basic safety and security improved and the civilian role of the police is assured
- ✓ Somalis benefit from more democratic, transparent and responsive governance
- ✓ Reconciliation and outreach is advanced at political and community levels

**Expected results:**

- Rule of law strengthened and access to justice is expanded. Basic safety and security improved and the civilian role of the police is assured;
- Somalis benefit from more democratic, transparent and responsive governance
- Reconciliation and outreach is advanced at political and community levels.

**Sector 2: Food Security**

**General objective:** to strengthen resilience of Somali communities through improving, intensifying and diversifying agriculture production. Support to livestock sector, re-establishment of livelihoods avoiding negative coping strategies like charcoal production and creation of sustainable employment opportunities.

**Specific objectives:**

- ✓ Food and nutrition security strengthened thanks to increased productivity of sustainable agriculture, livestock and fisheries sectors
- ✓ Incomes increased and stabilized at household level through promotion of access to markets and services
- ✓ Livelihoods re-established through support to recovery and nutrition
- ✓ Support to economic growth through development of business environment and private sector

**Expected results:**

- Food and nutrition security strengthened thanks to increased productivity of sustainable agriculture, livestock and fisheries sectors;
- Incomes increased and stabilized at household level through promotion of access to markets and services;
- Livelihoods re-established through support to recovery and nutrition;
- Support to economic growth through development of business environment and private sector.

**Sector 3: Education**

**General objective:** To improve access to quality education and training and strengthen education systems

**Specific objectives:**

- ✓ Increased access to good quality education for all children, youth and adults, including nomadic groups, people with special education needs and IDPs/returnees/refugees, with equal access for girls and women
- ✓ Participation of youth and adults, including from vulnerable groups, in technical and vocational education and training increased
- ✓ Capacity of education institutions, administrations and systems strengthened.

**Expected results:**

- Increased access to good quality education for all children, youth and adults, including nomadic groups, people with special education needs and IDPs/returnees/refugees, with equal access for girls and women
- Participation of youth and adults, including from vulnerable groups, in technical and vocational education and training increase
- Capacity of education institutions, administrations and systems strengthened.

**Civil Society**

Civil society organisations (CSOs) have played a critical role during the conflict and in the absence of a central government in terms of service delivery in several areas. An indicative amount of maximum 14 MEUR will be set aside for support to civil society organisations throughout the focal sectors. The ongoing work towards the adoption of an EU Road map for civil society engagement in Somalia will highlight the roles of civil society in the different sectors and will allow for a coordinated approach for an effective civil society mainstreaming within the NIP.

**Other support measures**

A support facility (i.e. the Technical Cooperation Facility - TCF) which aims to support or accompany the programming, preparation or implementation of actions, may be foreseen in the programming through a specific allocation. Such a facility is not a focal sector and can therefore be programmed in addition to the maximum of three sectors. It is to be used for supporting activities of limited amounts. It may not be used neither for financing small projects in additional sectors to the maximum three sectors, nor for actions related to cross cutting issues. These should be financed within the sectors selected and, for ACP countries, within the specific allocation for support to civil society.
